

Full Monty Military Challenge

Imagine the thrill of driving a 17 tonne tank

Drive a range of tanks as part of a military day including;

- Haugglund with a V6 engine and is fully amphibious
- Lance Missile Carrier that will climb anything
- The Abbott 17 ton gun tank which is fast and maneuverable

The day also involves learning the secrets of the SAS and then putting your knowledge to the test. Will you survive the woodland patrol, locate landmines and dodge the booby traps?. Taking turns as lead scout, you patrol a set course with hazards along the way.

The instructor will then explain what it takes to survive in jungles, deserts and extreme areas of the world where survival techniques such as finding water is the difference between life and death. These newly learnt skills are then tested with practical tasks given to the group including shelter building and fire lighting.

The highest scoring recruit will win the Grand Finale, to crush a family saloon car with a 56 ton Chieftain battle tank.

As well as thrilling activities and an exciting day out, there will be the opportunity for everyone to work in small teams allowing them to observe and learn from people within their own group. This will enhance professional performance and foster skills that can be transferred to the working environment, such as:

Communication Skills
Leadership and Delegation
Problem Solving
Team Work
