

# Spy HQ

Practice the action moves of Evasive Driving and learn the skills required to conduct a secret agent operation

First, genuine evasive driving instruction and anti-ambush drills were you'll be shown how to manoeuvre and control the car 'Spy Games' style and also you will wear out a lot of tyres ! You're behind the wheel and carrying out J-turns reversing quickly and spinning the car through 180 degrees and speeding away. You will also learn how to carry out the perfect handbrake turn, to drive through a slalom course without hitting the cones, and how to do it going backwards. Then there's the drive-in shooting range - skid to a halt, shoot the targets from the car, and then speed off again against the clock. A definite must for the adrenaline junkie, and definitely not for those who have a weaker stomach

Second, learn some essential skills required to conduct a secret agent operation; how to use specialist spy equipment like covert cameras and UHF radios, bugs and listening devices, and lock picking gadgets. You'll be taught how to use a pistol, the Secret Agent's personal weapon, and then test your skills with quick-draw techniques in a VIP protection scenario. You'll fire machine guns on the Close Quarter Battle area, apply precision shooting through the powerful telescopic sight of the sniper rifles, try your skill at axe throwing, and test your nerve and concentration with the bomb de-activation challenge. Also, the hi-tec laser combat system is used in a harmless shoot-out to practice "contact drills". You'll receive some expert instruction on un-armed combat techniques, useful when you're cornered by enemy agents!

This 'Spy Experience' is especially relevant to assist the team in improving; **communication, team spirit, diversity, time management, control and leadership.**
